

# ONE STORY, MANY LIVES

INFLUENCING THROUGH  
POWER OF STORY TELLING

# Vision

This project's mission is to increase diversity in STEM fields by encouraging enthusiastic individuals to become role models for those who come from less fortunate, traditionally oppressed, or underrepresented backgrounds by influencing them through their story.

# Why story telling?

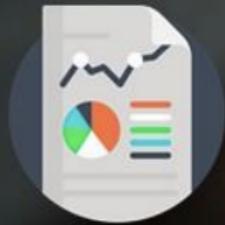

Telling stories is one of the most powerful means that leaders have to influence, teach, and inspire. Storytelling forges connections among people, and between people and ideas. Stories convey the culture, history, and values that unite people. When it comes to our countries, our communities, and our families, we understand intuitively that the stories we hold in common are an important part of the ties that bind.

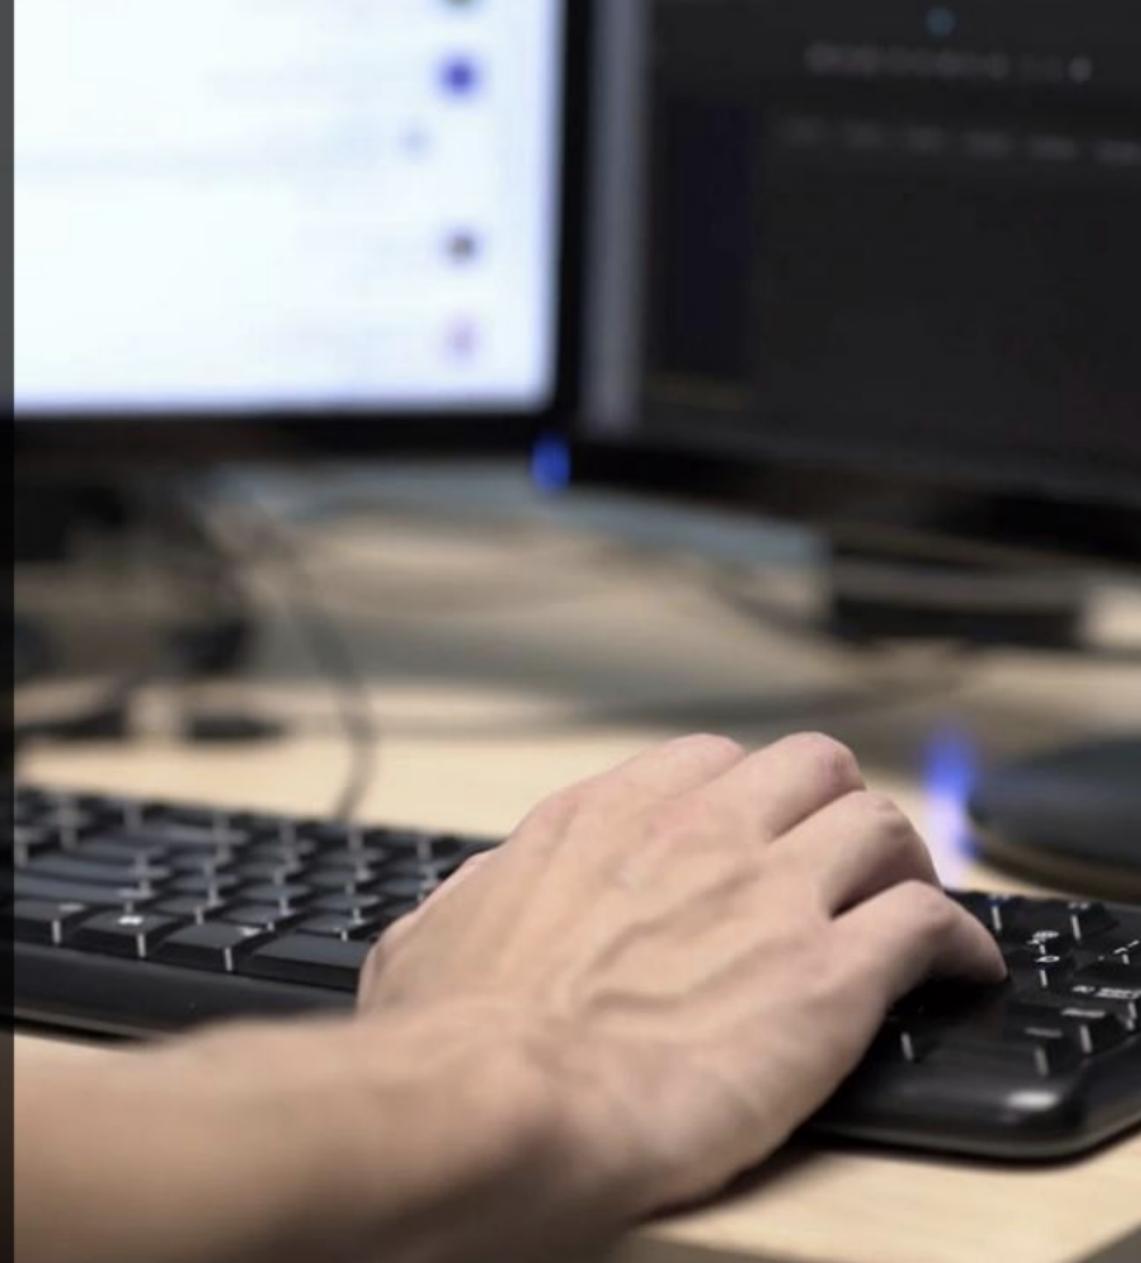

A short **video** highlighting the main events of their journey.

A well narrated and empathetic story, makes this method **relatable**, **enjoyable**, and **memorable** in addition to being easy to share.

We believe in simplicity. We plan on designing an **infographic** for each story which presents the key points in a **memorable** way. This method also enables us to share the present the stories in **non-digital** format.

# We like to hear your story!

The easiest way to contribute to a big positive change for a better future for all is by simply sharing your story with us. You can start today by filling out [this google form](#).

Someone from our team will reach out and after we hear your story, we will make a video and infographic for you and your story will start influencing many bright minds who will be the leaders of the future.
